

RELEASE NOTES

08 October 2021

What's new in Version: v3.3.12.6

ENHANCEMENTS:

- **EOR: Order Details tab**

The screenshot shows a navigation menu with tabs: Patient History, Preliminary Test, Binocular Vision Test, Refraction, External Ocular Health, Ancillary Tests, and Internal Ocular Health. Below these is a sub-menu with Contact Lenses and Order Details (highlighted with a red box). The main content area is titled 'Spectacle Prescription' and contains fields for Exam Date and Expiration Date. Below that is the 'O.D.' section with input fields for Sph (0.00), Cyl (0.00), Axis (0°), Result (Please Select), and Prism.

- **EHR: Linked Claim navigation (Links by same ICD10 + DOS)**
