

RELEASE NOTES

24 January 2022

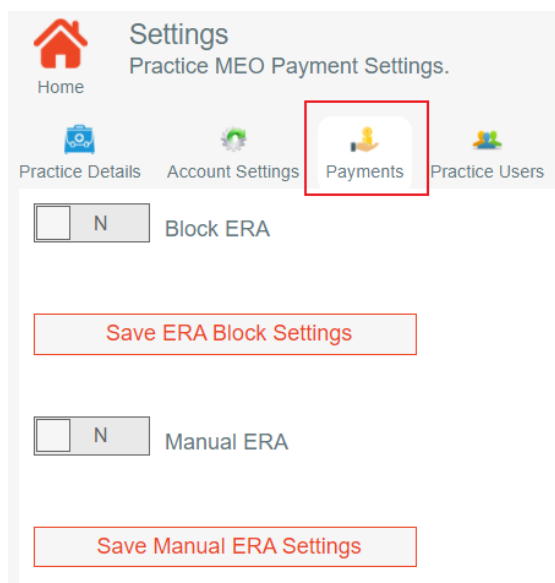

What's new in Version: v3.3.18.3

ENHANCEMENTS:

- **Calendar Settings:** Ability to auto update an appointment status. EG set Patient billed to auto update. When you bill a patient the appointment status on calendar will automatically update

Link Bill To Specific Appointment Status.

- **ERA Settings:** Ability to turn on manual ERA adjudication. Refresh the payment screen and ERA block date will come up for you to set the date to block older ERA's from coming in (NB: date is very important, if you set the date way back it will revert all ERA's. Set the date to start of a new month so ERA's can come in manually)

Block ERA

Save ERA Block Settings

Manual ERA

Save Manual ERA Settings

- **Payments: User can manually adjudicate an ERA which falls after the above set block date. Click on an ERA to allocate payment**
