

RELEASE NOTES

23 November 2022

What's new in Version: v3.4.31.1

ENHANCEMENTS:

- **Settings: Patient Questionnaire**
Ability to add in questions and the practice can fill out under patient profile

The screenshot shows two parts of the software interface. The top part is the 'Settings' page, titled 'Practice Defined custom details of patient'. It features a navigation bar with various settings icons, and a 'Patient Questionnaire' icon highlighted with a red box. Below this is a form for adding questions, with a text input field, a 'Yes No' toggle, and an 'Add Question' button. The bottom part of the screenshot shows the 'Account' page, titled 'Custom Practice Patient Medical Questionnaire'. It has a similar navigation bar with a 'Questionnaire' icon highlighted in red. The main content area shows a patient profile for 'D1 - Test Naidoo Discovery Health Medical Scheme Classic Priority' and a question 'Any allergies?' with a text input field and a 'Save Patients Answers' button.

- **WCA Account: Invoice VAT broken down**
